

Health Information Exchange (HIE)

CORHIO empowers people, providers and communities by providing the information they need to improve health.

3 Ways to Participate in HIE:

View care summaries from ambulatory providers, Kaiser Permanente, Dept of Defense and more

Access recent lab results

Results		Most Recent	
Date	Description	Date	Description
03/10/2015	UA Complete	03/10/2015	ANTIGEN PATIENT INTERPS 1-5
03/10/2015	ANTIGEN PATIENT INTERPS 1-5	03/10/2015	ANTIGEN PATIENT INTERPS 1-5

Get detailed reports such as transcriptions and radiology and pathology results

Reports		Most Recent	
Date	Description	Date	Description
03/17/2015	Progress Note (TRANSCRIPTION)	03/17/2015	Surg. Path. Report (PATHOLOGY)
03/10/2015	Op. Note (TRANSCRIPTION)		

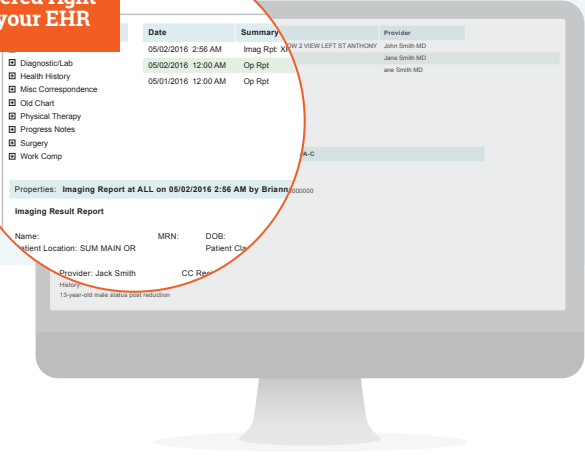

Query Patient Data

PatientCare 360® is a secure web-based portal used for querying patients and accessing their medical histories and clinical results including lab, pathology and radiology results, transcription reports, care summary documents, admission/discharge/transfer details and more.

 CORHIO works with your EHR vendor on an interface that connects your EHR to the CORHIO network of data

 You choose the sending facilities and data you want to receive from those facilities

Results are delivered right into your EHR

The screenshot shows a list of reports with columns for Date, Summary, and Provider. A red circle highlights the 'Imaging Result Report' section, which includes patient information like Name, MRN, DOB, Patient Location, and Provider.

Receive Patient Data in your EHR

EHR Results Delivery routes patient data automatically to your EHR system based on provider. The results are shown in real-time from hospitals, labs, imaging centers and more. CORHIO has successfully interfaced with many EHR vendors, including Amazing Charts, GE Centricity, NextGen, Athena and Allscripts.

Get Notifications of Recent Patient Activity

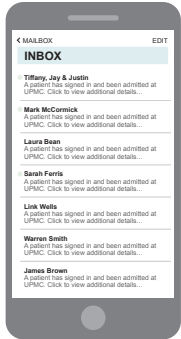

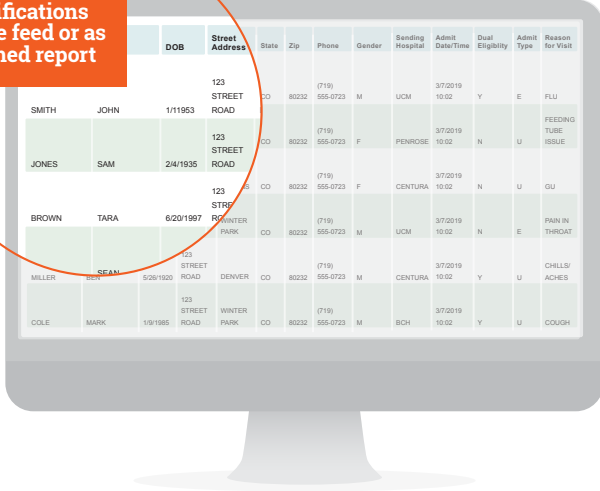

Notifications provide you with real-time alerts of hospital visits (admits, discharges or ER) and lab results for active patients in your organization. Simply send us a patient or member list and we return to you the most current data available from our large network of providers.

- Save your care managers time in coordinating patient care, such as follow-up treatment or medication review
- Increase follow-up and care coordination reimbursements from Medicare and other entities
- Review more detailed records from your patient's recent encounter via our secure web-based portal PatientCare 360

 Send CORHIO your patient or member file

 We match your patient or member file to our database of clinical information

Receive notifications via real-time feed or as a daily batched report

	DOB	Street Address	State	Zip	Phone	Gender	Sending Hospital	Admit Date/Time	Dual Eligibility	Admit Type	Reason for Visit
